

# Daan Balm

Front-end developer

## PROFILE

I've always had an interest in innovation and technology.

I'm very motivated to keep learning more about modern design and tools that allow me to create better and more beautiful experiences for the daily users of the web.

I enjoy traveling and exploring. I get inspired by other countries and cultures. It gives me perspective.

## EXPERIENCE

### WEB DEVELOPER, KONNECT KIT, AMSTERDAM, NETHERLANDS

— 2021/07 - 2021/11 —

After my time at Togather was done I started working at Konnect Kit as a web developer (mostly front-end, VueJS, Typescript, SCSS).

### WEB DEVELOPER, TOGATHER FINANCE, AMSTERDAM, NETHERLANDS

— 2020/06 - 2021/07 —

After my internship, I got the chance to keep working at Togather. My current focus is to maintain, improve and continuously implement new features. Enhancing the customer experience while using our system is one of the other main responsibilities that I will be focusing on.

### INTERN, TOGATHER FINANCE, AMSTERDAM, NETHERLANDS

— 2019/08 - 2020/06 —

After high school I started an internship at Togather finance. Where I was mentored to become a web developer. I started with no knowledge on coding. Started with HTML and CSS. Then continued with PHP and SQL. After that I was ready to do some actual work, so I did: I maintained and developed new features in the monolithic system. A little bit after the company started moving to more modern solutions. So I started learning Javascript, Vue.js and Bulma.

I am very grateful to have been able to express my creativity by implementing my modern design ideas, namely neo-morphism, which was implemented in the new version of the system.

## SKILLS

HTML - CSS/SCSS - BULMA - JAVASCRIPT - TYPESCRIPT - NODEJS - THREEJS - EXPRESS - VUEJS - PHP - SQL - MONGODB -

## **INTERESTS**

Innovation, Modern design, Branding, Traveling, Music, Coffee

## **TOOLS**

Figma, AdobeXD, PhpStorm, VisualStudioCode, PostMan, Slack, ClickUp

Enkhuizen, Netherlands
